

SP 200

Two tank, non-electric whole house filtration system with scale prevention treatment.

The salt free, environmentally friendly technology is based on a process called “seed crystallization”, which converts Calcium and Magnesium ions into millions of microscopic Calcium Carbonate “seed crystals”. These microscopic crystals are so small they travel with the water and do not attach to surfaces.

Features

- Two technologies are utilized in one, compact water treatment system
 1. Premium grade, coconut shell activated carbon
 2. Anti-scale media for scale prevention
- Non-electric in-out heads
- In-out heads come with by-pass
- By-pass comes with quick connect pipe fittings
- Includes scale prevention media
- No drain required
- Easy installation
- 10/7/5/1 Year Limited Warranty – please refer to Warranty Statement for details

Consumer Benefits

- Enjoy whole house water filtration plus scale prevention treatment
- Reduce harmful chemicals, Chlorine, taste and odors
- Better tasting water, coffee, tea and other beverages made with tap water
- Reduce scale formation in plumbing fixtures and water related appliances
- Automatic, care-free operation
- Salt is not required
- No backwash required
- Does not use electricity

Specifications

- In-out heads are non-electric
- Two 9” x 48” mineral tanks are rated for pressures to 600 psi; NSF certified
- 1.0 cu. ft. coconut shell activated carbon; NSF certified
- Scale prevention media is NSF certified
- Service flow rate up to 10 GPM
- Minimum operating pressure 20 psi - maximum 125 psi
- Minimum operating temperature 34°F - maximum 110°F
- Includes 3/4” and 1” quick connect pipe fittings
- No drain required
- 90 lbs. shipping weight (ships in two cartons)
